

Year 3 / Autumn / Awesome Earth

Collaboration

We will work together to support each other in developing and listening to different thoughts and ideas. In doing so we will challenge and explore new learning.

Possibilities

We will take risks in our learning, challenging ourselves and each other. We will embrace every possibility we face, developing our personalities, talents and abilities.

Respect

We will create a mutually safe and supportive environment where all members of our school community, our own and other cultures, and the environment are treated with respect.

Technology

We will learn how use technology safely and effectively. We will use it as a tool to enhance our understanding and learning in different ways by using iPads, the Internet and blogging.

What is our Earth like?
What is the World around us like? Where do people live?
How do they live?

Why did the Romans invade Britain and what did they leave behind?

What lies above?
What lies beneath our feet?

Who was Mary Anning?
What did she discover?
How do we remember her?

Why should we protect our environment?
What can we do to help?
