

## Year 6 / Autumn / Into the Unknown...

### Collaboration

We will work together to embrace the challenges that our new year group presents and act as role models to others in school.

### Possibilities

We shall seek to embrace opportunities that present themselves throughout the term by considering the achievements of others.

### Respect

We will respect the fears and aims of others, and always remain encouraging whilst celebrating their achievements.

### Technology

We shall maximise the opportunities that technology provides to help use create and be ambitious. Within our learning.

How do living things survive and thrive?

Should we embrace or fear the unknown?

What is the unknown?

What does the unknown hold for us?

Does the unknown affect how we view the world?
