

## Year 2 / Summer / HOPE

### Collaboration

We will learn to work co-operatively with different people in our class, sharing and developing ideas together. We will learn to respect the ideas of others and become confident in sharing our own opinions.

### Possibilities

As learners we will develop the notion that it is important to try and that if we do not succeed we can learn from the experience and use this learning to help us next time.

### Respect

As friends and Peers, we will recognise that everybody is different, socially, racially and academically, and use this knowledge to help us show respect for everybody and everything. We will strive to be good role models

### Technology

As children of the computer age we will recognise and begin to understand the significance of computers in our lives. We will use technology in the classroom to develop our learning and share our work
